

# It's time to invest in Southwest Fresno

And it's time to make sure \$70 million is used in our community

*Thanks to the hard work of residents, the Transformative Climate Communities program was established. Now, \$70 million from the program is headed to Fresno to transform communities hurt by pollution and lack of investment.*

Southwest Fresno is one of these communities. Residents who live in the 93706 zip code live in neighborhoods that are more polluted than anywhere else in the state.

Residents from Southwest Fresno have already established a vision for transformation through the Southwest Specific Plan, that includes more and better parks, healthy and affordable housing, living wage jobs, and no more pollution.

Together, we can transform Southwest Fresno and connect residents to a resurging downtown.

**You have a say in how the program benefits your community—FROM START TO FINISH!**

## JOIN US

Join us for a discussion with local and state public officials about how these funds should be spent to transform our community.

**Thursday, April, 27, 2017  
5:30 - 7:30 P.M.  
Saint Rest Baptist Church  
1550 E. Rev. Chester Riggins Ave, Fresno**

Hosted by: Oliver L. Baines III, Councilmember - District 3  
and Randall Winston, Executive Director,  
California Strategic Growth Council

Spanish & Hmong translation will be available. RSVP for childcare via phone (559) 825-6189.

**It's time to invest in Southwest Fresno  
and create #OneHealthyFresno.**
